SUMMARY

I am a highly experienced backend developer with a passion for crafting efficient and reliable software solutions. I specialize in utilizing PHP, Laravel, and NestJS to deliver robust and scalable applications. Throughout my career, I have worked on various projects including a currency exchange app, an education platform, a data collection platform, a multi-tenant team management app, and a CMS project. I have a strong understanding of technologies such as TypeScript, PostgreSQL, AWS services, Symfony, MongoDB, and Docker. My educational background includes an Associate's in Computer Programming from Marmara University. I am fluent in Turkish and English, with intermediate proficiency in German. Outside of work, I enjoy reading, playing chess, cycling, and gaming. You can find me on LinkedIn and GitHub.

EXPERIENCE

Backend Developer

Saypr

06/2021 - 06/2024 London - Remote

- Participated in the development of a currency exchange app tailored for Cyprus, contributing to the project using **TypeScript**, **NestJS**, **PostgreSQL**, and **AWS services**.
- I was part of a team that developed an education platform serving students and teachers. Helped more than 12000 students with their lessons. I used **PHP**, **Laravel**, **MySQL**, **Redis**, and **AWS services (S3, EC2)** to contribute to this project, highlighting my involvement in building an innovative educational platform.
- I played a key role in developing a robust data collection platform using **PHP**, **Laravel**, **MySQL**, **Redis**, and **AWS services (S3, EC2, RDS, Lambda)**. This platform offers versatile tools for efficient online data collection.

Backend Developer

Piple

09/2020 - 06/2021 Izmir - Remote

- Helped build a multi-tenant team management app with task management, chat, calendar, OKR, feedback, and a kudos wall. Assisted 70 teams with their communication. Utilizing **PHP/Symfony**, **PostgreSQL**, **Redis**.

Backend Developer

Siliconmade R&D

10/2019 - 09/2020 Istanbul - Remote

- Worked on a project that gives you opportunity to find and meet local people to share local experiences in your next travel destination. Supported to increase the application speed by 20%. Main technologies are **PHP/Laravel**, **MySQL**, **Redis**.

Co-Founder

Bosphorus Tech

09/2018 - 10/2019 Istanbul

- We built a project which you can build your own restaurant, hairdresser mobile app. I was responsible for team management, database structure, API and testing. Using **PHP/Laravel**, **MySQL**, and **Redis**.

Backend Developer

Linking Arts

11/2017 - 08/2019 New Orleans, Remote

- Contributed to a CMS project enabling photographers to upload and share event photos seamlessly with their customers through web and mobile applications, supporting 200 photographers. Technologies used: **PHP/Laravel**, **MySQL**.
- Developed a web-based application showcasing artists' works in New Orleans, with a database of 120 artists and their artworks. Using **PHP/Laravel**, **MySQL**, and **Redis**.

Web Developer

Natron

03/2015 - 02/2017 Istanbul

- My first full-time job as a developer. We built an LMS for universities using **PHP/Laravel** and **MySQL**. The LMS used by 42 universities in Turkey.
